

Setting Standards in Brain Injury Rehabilitation

Service Levels and Price Bands

I have seen my client progress through the Service Levels at The OakLeaf Group. The care package costs reduced as he moved to different Price Bands. Despite an extremely severe brain injury, he has gone on to live independently, something which would not have been achieved without the support of the multi-skilled team at OakLeaf.

THE
OAKLEAF
GROUP

Service Levels and Price Bands

In response to commissioners' comments we have revised our service levels and pricing structure to reflect the differing needs of people requiring our services and to provide a framework of fees that is transparent, inclusive of core elements but is flexible enough to offer reducing costs as people's needs change. People can be referred and admitted to any level of service.

Assessment and Specialised Rehabilitation

Band	Level	Includes	Excludes	Fee Rate
A1	Intensive 12 Week Assessment and Resulting Active Rehabilitation Phase (Full MDT)	Accommodation and care costs with access to full MDT including Specialised Registered Nursing, Neuropsychiatry, Occupational Therapy, Neuropsychology, Physiotherapy, Speech & Language Therapy, Family Liaison Worker and other healthcare professionals; GP, Dietician etc. Full structured activity timetable and intensive, co-ordinated interdisciplinary assessment. Risk Assessment and Management. A first review meeting at a point specified by the funder with full attendance at review meetings by MDT members to deliver a comprehensive assessment/review report.	Continuous 1:1 staff supervision over and above that which is naturally provided as part of the core service, any 1:1 staffing by a CSW will be charged at a standard hourly rate.	On request
A2	Continuing Rehabilitation and Review (Incorporating specifically identified therapy disciplines)	Includes benefits of Band A1 Rehabilitation Phase, including Neuropsychology monitoring but excluding one of the following disciplines; Individual Neuropsychology Consultant, Physiotherapy or Speech & Language Therapy.	As Band A1	On request
A3	Continued Review	Includes all benefits of Band A2, excluding Individual Neuropsychology Consultant, Physiotherapy and Speech and Language Therapy.	As Band A1	On request
A4	Continued Placement	A pre-discharge placement (either to a long stay facility, community home or to the person's own home) where there is still 24 hour support but with a reduced rehabilitation focus to reflect the level of independence/maintenance required by the person.	As Band A1	On request

These services are provided at:
